

The Full Service Provider around Automatic Maintenance

Central Lubrication and Environmental Technology

The BEKA WORLD logo features a stylized world map in yellow and green, enclosed within a thick black oval. The word "BEKA" is written in black and "WORLD" in blue, both in a bold sans-serif font, overlaid on the map. Below the map, the tagline "...the world of lubrication" is written in a smaller, black sans-serif font.

**Consulting and projecting,
development and production,
installation and service:**

All from a single source

Automatic maintenance systems made by BEKA

BEKA - the synonym for innovative and high-quality central lubrication systems. Latest technology, a wide product range and a worldwide presence ensure customized solutions for every request. Technology you can rely on.

The BEKA program contains a widespread range of lubrication and maintenance systems for all kinds of applications. Besides classical lubrication systems for machines and vehicles, BEKA offers high-tech solutions for special lubrication applications and innovative solutions in the area of environmental technologies and monitoring electronics.

Always an appropriate solution

Depending on the application, BEKA develops customized solutions which can be consisting of one or more different lubrication systems. From simple manual lubricating device up to sophisticated high tech maintenance systems.

The BEKA program:

 **BEKA**CLEARTRONIC

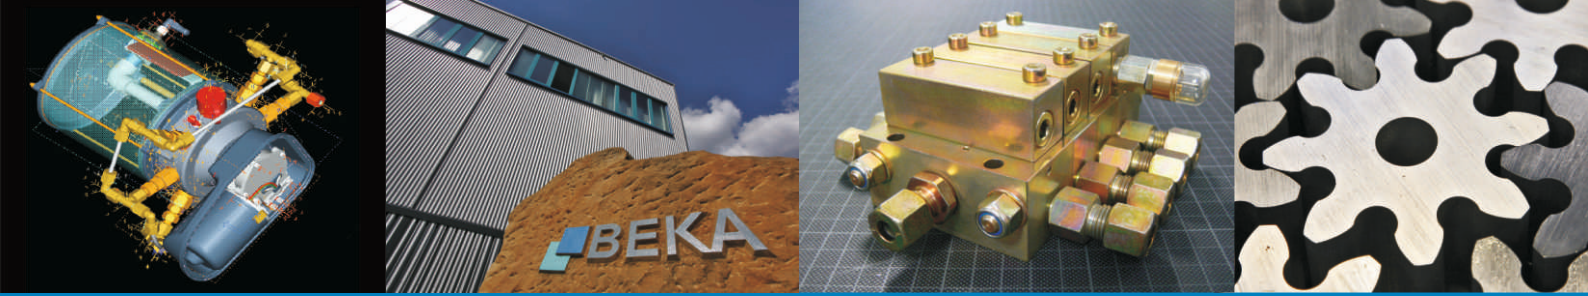

Environmental Technology

 **BEKA**TRON

Control and Monitoring Electronics

The Automatic Single Point Lubricator

With more than 900 employees, three production sites in Germany and a global network of partners and agencies BEKA today is one of the leading suppliers of centralized lubrication.

Focussed on the realization of customer-specific solutions, BEKA is not just a supplier of components but of lubrication systems and attends the customer in all project stages and also later on.

Research and development

10 % of the BEKA staff works in R&D departments – because good ideas are the most important capital of an innovative company.

The production

BAIER + KÖPPEL has a high vertical range of manufacturing. A modern machine park stands for efficient production with highest precision.

Optimized processes care for a short-term realization of customer-specific demands.

Quality you can rely on

The contentment of the customer depends mainly from the product quality. For that reason, the BEKA quality assurance plays a central role and supervises the production steadily.

Because 1 μ can be decisive!

24 hours a day and 7 days a week on the road: BEKA service

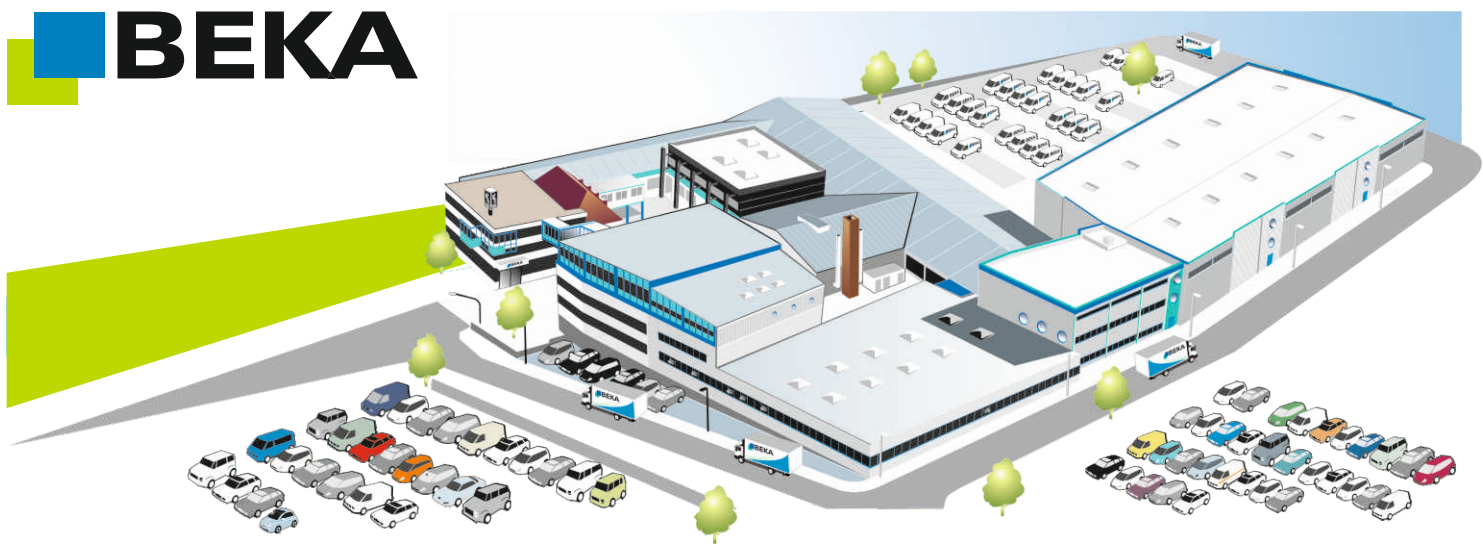

Our service teams are always at your disposal. Installations, start-ups, repairs or maintenance works: Our technicians take care that your lubrication system runs.

Our specialists will be pleased to inform you!

Central lubrication since 1927.
